- Manual air conditioning
- ABS
- Plus pack: remote central locking, automatic door locking while driving, electric heated door mirrors, electric front windows
- Passenger airbag
- Half height solid bulkhead with upper grille mesh
- Left hand side sliding door

## Engine

To meet the demands of today's road conditions, the Partner Origin offers an engine with a level of torque that ensures brisk starts, good acceleration at low engine speeds and fewer gear changes, even when carrying a full load. The 1.6 litre HDi 75 bhp turbo diesel engine offers exceptional driveability. This high-performance and economical engine complies with the EURO 4 standard.

**The benefits of HDi technology**  
With HDi technology, the Common Rail system injects fuel at high pressure into the combustion chamber; thereby reducing fuel consumption and emissions and providing additional power.

Engine	Urban (mpg)	Extra Urban (mpg)	Combined (mpg)	CO <sub>2</sub> (g/km)
1.6 litre HDi 75 bhp	42.2	60.1	52.3	143

THE DRIVE OF YOUR LIFE

## Your functional workmate

Whatever your profession, you want your van to be practical, functional, capable...

With the Partner Origin, you'll be driving a van that makes your life easy and demonstrates a professional image to your customers.

Van with sliding side door option

Load floor cover shown is available as a dealer fit accessory

## Compact, safe and accessible

You want as much space and volume inside your van as possible... but at the same time you want manoeuvrability. Partner Origin fits 3m<sup>3</sup> load capacity into its compact frame and can carry either 600kg or 800kg payload.

### Sliding side door\*

To make unloading easier, the Partner Origin offers an optional panelled left hand side sliding door\*.

### Hinged rear doors

These can be opened to an angle of 180°, with an intermediate locking system at 90°, to reveal an interior volume of 3m<sup>3</sup>.

### Bulkhead\*

While a ladder frame protector behind the driver's seat comes as standard, for extra protection choose either the optional half height solid bulkhead or the half height bulkhead with upper grille mesh.

\*Optional.

## Versatile and talented

The Partner Origin adapts to the way you do things and the way you want things done. A true and trusted working tool, your Partner Origin is an incredibly comfortable place to work, offering a spacious cabin with excellent storage capacity.

Partner Origins comprehensive equipment levels include:

1) Driving aids which allow you to concentrate on the road:

- Radio/CD player with remote steering wheel controls
- Cruise control\* operated from the steering wheel. This keeps the vehicle at a constant programmed speed without the need to use the accelerator pedal.

2) Personalise your Partner Origin and add even greater comfort for the driver and passenger:

- Manual air conditioning\*
- Plus pack, including remote central locking, electric front windows, electric heated door mirrors\*

3) A van is a daily working tool and so all additional storage space makes life easier:

- 3 cup holders.
- 1 coat hook.
- Lidded glove box.
- Storage pockets and bottle holders in the front doors.

\*Option at extra cost

## Intelligence that protects

### Active safety

To optimise braking efficiency, the Partner Origin comes as standard with ventilated disc brakes at the front and drum brakes at the rear. As an option it can be equipped with a 4 sensor ABS system with electronic brake force distribution, enabling you to keep control of the vehicle during emergency braking as far as the laws of physics allow.

### Passive safety

The driver and passenger seats have seat belts equipped with pretensioners, with a fasten seat belt warning light on the fascia panel. They also incorporate force limiters designed to reduce pressure on the chest in the event of impact. In addition to this, the Partner Origin has a driver's airbag and an optional passenger airbag.

## Dimensions

External dimensions		Internal dimensions	
Overall height	1.796 - 1.819m	Maximum load height	1.246m
Overall length	4.137m	Maximum load width	1.600m
Overall width (including door mirrors)	1.960m	Width between wheel arches	1.190m
Wheelbase	2.693m	Load length	1.700m
		Load sill	0.567m
